Putnam Global Consumer Fund

Pursuing investment opportunities in consumer staples and consumer discretionary companies worldwide

A dynamic sector

The fund invests in industries that can profit from the global demand for consumer products and services. Examples include retail, hotels, autos, food, and beverages.

A global approach

To seek the best opportunities, the fund's manager has the flexibility to invest in stocks from around the world.

Active management

The manager, supported by experienced research analysts, combines rigorous fundamental research with macroeconomic views to pinpoint opportunities across the sector.

Diversification across markets

United States	66.7%
United Kingdom	9.9
Netherlands	6.1
Japan	5.2
Hong Kong	4.8
Germany	2.8
Other countries	3.8
Cash and net other assets	0.7

Allocations will vary over time. Due to rounding, percentages may not equal 100%.

Top ten holdings

Amazon	10.99%
Unilever	6.13
CarMax	5.97
Charter Communications	5.92
Sherwin-Williams	5.41
Liberty Media	4.83
MGM China Holdings	4.77
Compass Group	4.49
Home Depot	4.38
Gaming and Leisure Properties	4.14

Holdings represent 57.03% of the portfolio and will vary over time.

Growth of a \$10,000 investment

The fund has returned an average of 12.8% annually since inception.

Current performance may be lower or higher than the quoted past performance, which cannot guarantee future results. Share price, principal value, and return will vary, and you may have a gain or a loss when you sell your shares. Performance of class Y shares assumes reinvestment of distributions and does not account for taxes. Class Y shares, available to investors through an asset-based fee program or for institutional clients, are sold without an initial sales charge and have no CDSC. For the most recent month-end performance, please visit putnam.com.

The MSCI World Consumer Discretionary & Consumer Staples Index (ND) is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed markets in the consumer discretionary and consumer staples sectors. You cannot invest directly in an index.

Beta is defined as a fund’s sensitivity to market movements and is used to evaluate market related, or systematic, risk. It is a historical measure of the variability of return earned by an investment portfolio. Risk statistics are measured using a 5-year regression analysis. For funds with shorter track records, Since Inception analysis is used.

Not all share classes are available on all platforms.

Consider these risks before investing: International investing involves currency, economic, and political risks. Emerging-market securities carry illiquidity and volatility risks. Investments in small and/or midsize companies increase the risk of greater price fluctuations. Consumer staples and consumer discretionary products and services industries may be affected by demographic and product trends, competition, economic trends, and consumer confidence. The fund concentrates on a limited group of industries and is non-diversified. Because the fund may invest in fewer issuers than a diversified fund, it is vulnerable to common economic forces and may result in greater losses and volatility. Growth stocks may be more susceptible to earnings disappointments, and value stocks may fail to rebound. The use of short selling may result in losses if the securities appreciate in value. Risks associated with derivatives include increased investment exposure (which may be considered leverage) and, in the case of over-the-counter instruments, the potential inability to terminate or sell derivatives positions and the potential failure of the other party to the instrument to meet its obligations. Stock prices may fall or fail to rise over time for several reasons, including general financial market conditions, changing market perceptions, changes in government intervention in the financial markets, and factors related to a specific issuer or industry. These and other factors may lead to increased volatility and reduced liquidity in the fund’s holdings. You can lose money by investing in the fund.

Request a prospectus or a summary prospectus, if available, from your financial representative or by calling Putnam at 1-800-225-1581. These prospectuses include investment objectives, risks, fees, expenses, and other information that you should read and consider carefully before investing.
