Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶

Shareholders in the Putnam Arizona Tax Exempt Income Fund on the record dates per the attached statement received distributions, a portion of which represent a return of capital. As a result of the non-taxable distributions, the shareholders of record will be required to reduce the basis in their RIC common shares of this fund by amounts designated as a return of capital.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶

The shareholders' basis in their shares of this RIC is reduced by the distributions paid during calendar year 2015 which have been determined to be a return of capital. The impact to the shareholders' basis, on a per-share basis, can be found on the attached.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶

The Putnam Arizona Tax Exempt Income Fund had a return of capital of \$3,380 at its fiscal year ended 5/31/15. This represents .53% of the 2015 distributions which were paid in this fiscal year of \$640,609. See attached for per share amounts.

Part II Organizational Action (continued)

17 List the applicable Internal Revenue Code section(s) and subsection(s) upon which the tax treatment is based ▶
The portion of the distributions which are taxable as a dividend is determined under IRC §316(a) - Definition of Dividend - distributions from current and accumulated earnings and profits of the taxable year. The distributions which are not taxable as a dividend are characterized as a return of capital and used to reduce the shareholders' basis in their shares of the fund as provided for under IRC §301(c)(2).

18 Can any resulting loss be recognized? ▶
N/A

19 Provide any other information necessary to implement the adjustment, such as the reportable tax year ▶

Shareholders preparing their tax returns will also need to review their Form 1099-DIV (Dividends and Distributions) reports from the date of purchase to see if any of the dividends paid were classified as "return of capital" payments for tax purposes. These amounts reduce your cost basis. You are required to apply the return of capital to each tax lot separately, and cannot choose to apply it only to your high cost basis tax lots. You may end up with some tax lots where the cumulative return of capital payments exceed your original cost basis per share. In this case, you are required to recognize the excess return of capital payment for that tax lot as a capital gain.
